The Mediterranean Diet Roundtable (MDR) is a series of events to inform, inspire and promote the appreciation of ingredients and food practices distinctive of the Mediterranean cuisine, translating the benefits of the Mediterranean Diet into commercial opportunities in the United States. The MDR is playing a key role in repositioning the Mediterranean Diet as a competitive driving force to shape the current offerings in retailers, e-commerce and high volume commercial and non-commercial food services in America. Since 2015, we've organized several prestigious events, attracting hundreds of qualified and high-profile participants, including American food industry leaders and scientists. We had the pleasure and the honor of hosting UN Ambassadors of Mediterranean countries, several Ambassadors to our signature event in Washington DC, and countless buyers, importers, distributors, and specialty food service operators.
